1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 69-72 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims appear to be independent but have been drafted in dependent form. Accordingly the scope of the claims is not clear. The claims should be drafted into proper independent form to include all of the limitations intended by applicant. Additional fees for independent claims in excess of 3 are required.
3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
4. Claims 38-58 and 60-72 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Larkin et al (4,606,734). Open ended pocket area, as recited in claim 38 reads on port 33 when cap 35 is removed for attachment of tubing 73. Accordingly the claimed cannula reads on tubing 73. It would also have been obvious to provide the apparatus of Larkin with conventional elements of the claims that were deemed to be missing therefrom, for the purpose of improving the performance of the apparatus.
